EXPLANATORY NOTES

Introduction

This publication is issued each month as a supplement to the annual *Catalogue of Publications and Products, Australia* (1101.0) of the Australian Bureau of Statistics, which lists current ABS publications and gives brief descriptions (abstracts) of their contents. In addition, a *Publications Advice* (1105.0) is issued each Tuesday and Friday listing publications released on the day of issue and expected releases on the following five days (Canberra Office) or two days (State Offices).

2. Publishing News contains brief descriptions of the contents of new publications, describes changes in ABS publications and shows other information of interest to users of ABS publications.

Publication prices

3. A single price now applies to publications despatched by surface mail, both within Australia and overseas, and to counter sales. Airmail rates are available on request.

Mailing service

4. Clients who wish to receive free or priced publications on a regular basis may use the ABS Publications Subscription Service. Further details and order forms are available from any ABS office.

5. Clients who already use this service and who wish to amend their requirements should quote their account number when contacting ABS. The account number is shown at the top left hand corner of the address label used to despatch publications to clients.

6. Renewal notices are sent to all subscribers annually in respect of the subscription year commencing on 1 January. Payment for priced publications is required in advance and should accompany renewal notices returned to ABS.

Statistical information service

7. Each ABS office has an Information Service to assist clients. The service is designed to answer inquiries

from clients on available official statistics, including statistics not published for economic reasons. Unpublished statistics cover a variety of topics such as population, dwellings, building, imports, exports, shipping, etc., in the form of computer printout, microfiche, magnetic tape or specially prepared tables.

8. In cases where a considerable volume of data has to be specially extracted or where a regular statistical service is required, a charge will be made.

ABS PUBLISHING NEWS

New Publications Released During August 1990

- 1224.0 *Australian Standard Classification of Occupations (ASCO) — Expert Coding System, Unit Group Level* (Version 6.0 on Floppy Disk) (Annual lease \$500.00)

The ASCO computer-assisted coding system provides a fast and efficient method for coding information on occupation obtained in statistical collections to the unit group of ASCO (282 categories). The system is a stand-alone individual-coder productivity tool, running on IBM-XT or AT compatible microcomputers. It combines the coder's ability to analyse and interpret occupation title and task responses with the fast searching and matching abilities of a microcomputer. The published system is a revised and improved version of that used to process occupation responses in the 1986 Census of Population and Housing. It incorporates the procedures defined in *ASCO Manual Coding System, Unit Group Level* (1223.0)

- 2603.0 *Information Paper: Census 86: Data Quality — Ancestry* (\$12.50)

Addresses the accuracy of data derived from the ancestry question included in the 1986 Census. Internal consistency checks where ancestry responses are compared to responses to other related questions play a prominent role in this evaluation.

The weighting pattern provides the percentage contribution of items to both the Total Manufacturing Division and to the various Manufacturing Sub-divisions. Factors are also provided to enable conversion of index numbers from one base period to the other.
